CSTA Antibody (Clone AT1B12)

单克隆抗体

产品货号: MA01208

第三版

免疫原:Recombinant human CSTA (1-98aa) purified from E. coli

亚型:IgG1, k

克隆:Anti-human CSTA mAb, clone AT1B12, is derived from hybridization of mouse F0 myeloma cells with spleen cells from BALB/c mice immunized with a recombinant human CSTA protein.

描述:CSTA, also known as Stefin A, is thiol protease inhibitors that form complexes with papain and the cathepsins B, H and L. The protein is one of the precursor proteins of the cornified cell envelope in keratinocytes and plays a role in epidermal development and maintenance. CSTA is thought to be a tumor suppressor, since an inverse correlation seems to exist between the level of CSTA and tumor progression, in several malignancies.
