FCGR3A Antibody (Clone AT1B11)

单克隆抗体

产品货号: MA01253

第三版

免疫原:Recombinant human FCGR3A (18-208aa) purified from E. coli

亚型:IgG2a ,k

克隆:Anti-human FCGR3A mAb, clone AT1B11, is derived from hybridization of mouse F0 myeloma cells with spleen cells from BALB/c mice immunized with a recombinant human FCGR3A protein.

描述:FCGR3A (Low affinity immunoglobulin gamma Fc region receptor III-A), also known as CD16A, is 254 amino acid protein. This protein is involved in the removal of antigen-antibody complexes from the circulation, as well as other antibody-dependent responses. It mediates antibody-dependent cellular cytotoxicity (ADCC) and other antibody-dependent responses, such as phagocytosis. Mutations in this gene have been linked to susceptibility to recurrent viral infections, susceptibility to systemic lupus erythematosus, and alloimmune neonatal neutropenia.

配方:Liquid. In Phosphate-Buffered Saline (pH 7.4) with 0.02% Sodium Azide, 10% Glycerol.

浓度:1mg/ml

保存: +4 ° C 保存 (1-2 周). 长期保存在-20 ° C或者-70 ° C. 避免反复冻融.

应用:ELISA, WB, ICC/IF
