

AIMP2 (Aminoacyl tRNA synthetase complex-interacting multifunctional protein 2)

Polyclonal Antibody

Cat.NO.: PA01021

3th Edition

Description: AIMP2 is an important component for association of ARS multi-complex. AIMP2 is a potent tumor suppressor. AIMP2 inhibit c-myc activity in TGFbeta signaling, link c-IAP1 to TRAF2 by TNF-alpha stimulation and activate p53 under DNA-damaged condition.

Antigen: Denatured full length native recombinant human AIMP2.

Form: Anti-AIMP2 rabbit serum containing 0.05% sodium azide for preservative.

How to use: 1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

Dilution: PBS (pH7.4) containing 1% BSA

Application: This antibody can be used for western blotting in concentration of 1?5?g/ml.

Specificity: This antibody reacts specifically with 38kDa AIMP2(JTV-1) protein.
