

Flotillin-1 (C) Anti-Murine Rabbit IgG Affinity Purify

Polyclonal Antibody

Cat.NO.: PA01157

3th Edition

Description: It is difficult to distinguish catch and identify Raft protein, unlike Caveole which is the another micro domain of membrane, because the protein moves continuously on a cell membrane, and because the size and the structure of the protein are labile.

Antigen: Synthetic peptide of common part of C terminal of rat and mouse Flotillin-1 (SQVNHNKPLRTA)

Form: Lyophilized product from 1% BSA in PBS containing 0.05% NaN₃

How to use: 1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

Dilution: PBS (pH7.4) containing 1% BSA

Application: This antibody can be used for western blotting in concentration of 1?5?g/ml.

Specificity: Reacts with Rat, Mouse and Human Flotillin-1 (Confirmed by western blotting and Immunohistochemistry)
