N-Cadherin (760) Anti-Human Rabbit IgG Affinity Purify
Polyclonal Antibody
Cat.NO.: PA01321
3th Edition
Description:Cadherins are a family of Ca2+-dependent intercellular adhesion molecules. They play an important role in cell-cell interaction, histogenesis and cellular transformation, and association with the actin cytoskeleton regulates their function by a complex of cytoplasmic proteins called the catenins (?, ?, ?).

Antigen:Synthetic peptide of aa 746-761 (KRRDKERQAKQLLI) of human N -Cadherin
Form:Lyophilized product from 1\% BSA in PBS containing 0.05\%NaN3
How to use: 1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at $2-8^{\circ} \mathrm{C}$; Solution, 2 years at $-20^{\circ} \mathrm{C}$
Dilution:PBS (pH7.4) containing 1\% BSA
Application:This antibody can be used for western blotting in concentration of $1 ? 5 ? \mathrm{~g} / \mathrm{ml}$.

## Specificity:
