

Anti-Human/Mouse/Rat SCG3 Polyclonal Antibody

Polyclonal Antibody

Cat.NO.: PA12664

3th Edition

Description:The protein encoded by this gene is a member of the chromogranin/secretogranin family of neuroendocrine secretory proteins. Granins may serve as precursors for biologically active peptides. Some granins have been shown to function as helper proteins in sorting and proteolytic processing of prohormones; however, the function of this protein is unknown. Two transcript variants encoding different isoforms have been found for this gene.
