CRADD Monoclonal Antibody (Clone AT14G8)

单克隆抗体

产品货号: MA01196

第三版

免疫原: Recombinant human CHI3L1 (22-383aa) purified from E. coli

亚型: IgG2b,k

克隆: Anti-human CHI3L1 mAb, clone AT4D12, is derived from hybridization of mouse F0 myeloma cells with spleen cells from BALB/c mice immunized with a recombinant human CHI3L1 protein.

描述: Chitinase 3-Like-1 (CHI3L1) is a recently discovered human glycoprotein which is related in amino acid sequence to the chitinase protein family, but has no chitinase activity. CHI3L1 is upregulated in a number of cancers and in non-neoplastic disease states characterized by chronic inflammation and tissue remodeling. Its pattern of expression is associated with pathogenic processes related to inflammation, extracellular tissue remodeling, fibrosis and solid carcinomas. CHI3L1 may play an important role in the capacity of cells to respond to and cope with changes in their environment.

配方: Liquid. In Phosphate-Buffered Saline (pH 7.4) with 0.02% Sodium Azide, 10% Glycerol.

浓度: 1 mg/mL

保存: +4 °C 保存 (1-2 周). 长期保存在 -20 °C 或者 -70 °C. 避免反复冻融.

应用: ELISA, WB, ICC/IF
