Anti-Human CYP11B1/2 Polyclonal Antibody

多克隆抗体

产品货号: PA03358

第三版

描述:CYP11B1 (Cytochrome P450 Family 11 Subfamily B Member 1) is a Protein Coding gene. Diseases associated with CYP11B1 include Adrenal Hyperplasia, Congenital, Due To 11-Beta-Hydroxylase Deficiency and Aldosteronism, Glucocorticoid-Remediable. Among its related pathways are Cytochrome P450 - arranged by substrate type and superpathway of steroid hormone biosynthesis. GO annotations related to this gene include iron ion binding and oxidoreductase activity, acting on paired donors, with incorporation or reduction of molecular oxygen. An important paralog of this gene is CYP11B2. CYP11B2 (Cytochrome P450 Family 11 Subfamily B Member 2) is a Protein Coding gene. Diseases associated with CYP11B2 include Hypoaldosteronism, Congenital, Due To Cmo Ii Deficiency and Hypoaldosteronism, Congenital, Due To Cmo I Deficiency. Among its related pathways are Agents Acting on the Renin-Angiotensin System Pathway, Pharmacodynamics and Cytochrome P450 - arranged by substrate type. GO annotations related to this gene include iron ion binding and oxidoreductase activity, acting on paired donors, with incorporation or reduction of molecular oxygen. An important paralog of this gene is CYP11B1.

抗原:Synthesized peptide derived from the C-terminal region of human CYP11B1/2.

配方:

如何使用:加1ml超纯水重溶

稳定性: -20 ° C保存条件下，冻干粉,保质期为五年；液体，保质期为两年。

稀释液:PBS (pH7.4) ， 1% BSA

应用:WB 1 ~ 5 μ g/ml.

特异性:
