Anti-Human/Mouse/Rat NOP56 Polyclonal Antibody

多克隆抗体

产品货号: PA04500

第三版

描述: NOP56 (NOP56 Ribonucleoprotein) is a Protein Coding gene. Diseases associated with NOP56 include Spinocerebellar Ataxia 36 and Spinocerebellar Ataxia Type36. Among its related pathways are Chaperonin-mediated protein folding and rRNA processing in the nucleus and cytosol. GO annotations related to this gene include poly(A) RNA binding and snoRNA binding. Nop56p is a yeast nucleolar protein that is part of a complex with the nucleolar proteins Nop58p and fibrillarin. Nop56p is required for assembly of the 60S ribosomal subunit and is involved in pre-rRNA processing. The protein encoded by this gene is similar in sequence to Nop56p and is also found in the nucleolus. Expansion of a GGCTG repeat from 3-8 copies to 1500-2500 copies in an intron of this gene results in spinocerebellar ataxia 36. Multiple transcript variants encoding several different isoforms have been found for this gene, but the full-length nature of most of them has not been determined.

抗原: Synthesized peptide derived from NOP56

配方:

如何使用: 加1ml超纯水重溶

稳定性: -20 ° C保存条件下，冻干粉,保质期为五年；液体，保质期为两年。

稀释液: PBS (pH7.4) ， 1% BSA

应用: WB 1 ~ 5 μg/ml.

特异性:
