Anti-Human/Mouse RNF144A Polyclonal Antibody

多克隆抗体

产品货号: PA06083

第三版

描述: This gene encodes a member of a family of RING finger domain-containing E3 ubiquitin ligases that also includes parkin and parc. The expression of this gene is induced by DNA damage. The encoded protein interacts with the cytoplasmic DNA-dependent protein kinase, catalytic subunit (DNA-PKcs) and promotes its degradation through ubiquitination. The orthologous mouse protein has been shown to interact with a ubiquitin-conjugating enzyme involved in embryonic development. RNF144A (Ring Finger Protein 144A) is a Protein Coding gene. Among its related pathways are Protein ubiquitination and Metabolism of proteins. GO annotations related to this gene include ligase activity. An important paralog of this gene is RNF144B.

抗原: Synthesized peptide derived from the Internal region of human UBCE7IP4

配方:

如何使用: 加1ml超纯水重溶

稳定性: -20 ° C保存条件下，冻干粉,保质期为五年；液体，保质期为两年。

稀释液: PBS (pH7.4) ， 1% BSA

应用: WB 1 ~ 5 μg/ml.

特异性:
