Anti-Human SLAMF1 Polyclonal Antibody

多克隆抗体

产品货号: PA08980

第三版

描述:High-affinity self-ligand important in bidirectional T-cell to B-cell stimulation. SLAM-induced signal-transduction events in T-lymphocytes are different from those in B-cells. Two modes of SLAM signaling are likely to exist: one in which the inhibitor SH2D1A acts as a negative regulator and another in which protein-tyrosine phosphatase 2C (PTPN11)-dependent signal transduction operates.

抗原:Recombinant protein of human SLAMF1

配方:
