Anti-Human/Mouse/Rat PTMA Polyclonal Antibody

多克隆抗体

产品货号: PA09004

第三版

描述: Prothymosin alpha may mediate immune function by conferring resistance to certain opportunistic infections and as oncogenes contributing to cell proliferation and invasion in BC. Silencing of these gene significantly inhibited cell proliferation and invasion, and increased apoptosis in BC cells. Immunohistochemistry showed that PTMA expression levels were significantly higher in BC compared to normal bladder epitheliums.

抗原: Synthetic peptide of human PTMA
