产品货号: TP02228

第三版

别名:Golgi to ER traffic protein 4 homolog, Golgi to ER traffic protein 4 homolog (*S. cerevisiae*), C7orf20, CEE, CGI-20, TRC35

描述:GET4 is a component of the BAT3 complex, a multiprotein complex involved in the post-translational delivery of tail-anchored (TA) membrane proteins to the endoplasmic reticulum membrane. TA membrane proteins, also named type II transmembrane proteins, contain a single C-terminal transmembrane region. The complex acts by facilitating TA proteins capture by ASNA1/TRC40: it is recruited to ribosomes synthesizing membrane proteins, interacts with the transmembrane region of newly released TA proteins, and transfers them to ASNA1/TRC40 for targeting. Recombinant human GET4 protein, fused to His-tag at N-terminus, was expressed in E.coli .
