Recombinant Human Calcitonin gene-related peptide 2 Protein

产品货号: TP04618

第三版

别名: Calcitonin gene-related peptide 2; CALC2; Beta-type CGRP; Calcitonin gene-related peptide II; CALCB.

描述: CALCB is a member of the calcitonin family. CALCB is produced in both peripheral and central neurons. It is a potent peptide vasodilator and can function in the transmission of pain. In the spinal cord, the function and expression of CGRP may differ depending on the location of synthesis. CALCB is derived mainly from the cell bodies of motor neurons when synthesized in the ventral horn of the spinal cord and may contribute to the regeneration of nervous tissue after injury.

配方: PBS

分子量: 37&30.1

序列: Ala26&Ala82-Phe118

纯度: > 95% by HPLC

浓度:

内毒素: <1.0 EU per 1 ug of protein (determined by LAL method)

存储: +4 ° C 保存 (1-2 周). 长期保存在 -20 ° C 或者 -70 ° C. 避免反复冻融.
