Recombinant Human Adipocyte Adhesion Molecule Protein

产品货号: TP04890

第三版

别名: CXADR-Like Membrane Protein; Adipocyte Adhesion Molecule; Coxsackie- and Adenovirus Receptor-Like Membrane Protein; CAR-Like Membrane Protein; CLMP; ACAM; ASAM

描述: Adipocyte Adhesion Molecule (ASAM) is a type I transmembrane protein and member of the CTX family within the immunoglobulin superfamily. ASAM may be involved in the cell-cell adhesion, play an important role in adipocyte differentiation and development of obesity. ASAM can be expressed in the skeletal, heart, colon, spleen, muscle, lung and kidney with high level, and in the peripheral blood leukocytes and liver with low level. The extracellular region of ASAM consists two potential N-linked glycosylation sites, and two immunoglobulin domains, one V-type and one C2-type.

配方: PBS

分子量: 25.4 kDa

序列: Thr19-Met233

纯度: > 95% by HPLC

浓度:

内毒素: <1.0 EU per 1 ug of protein (determined by LAL method)

存储: +4 ° C 保存 (1-2 周). 长期保存在 -20 ° C 或者 -70 ° C. 避免反复冻融.
