Recombinant Human Tumor Necrosis Factor Receptor I/TNFRSF1A/CD120a Protein(C-Fc)

产品货号: TP05072

第三版

别名: Tumor necrosis factor receptor superfamily member 1A; TNFRSF1A; Tumor necrosis factor receptor 1; TNF-R1; TNF-RI; p55; p60; CD120a; TNFAR; TNFR1

描述: Tumor necrosis factor receptor superfamily member 1A (TNFRSF1A) is a member of the tumor necrosis factor receptor superfamily. TNFRSF1A is one of the major receptors for the tumor necrosis factor- α . It can activate the transcription factor NF- κ B, mediate apoptosis, and function as a regulator of inflammation. Antiapoptotic protein BCL2-associated athanogene 4 (BAG4/SODD) and adaptor proteins TRADD and TRAF2 have been shown to interact with this receptor, and thus play regulatory roles in the signal transduction mediated by the receptor. Germline mutations of the extracellular domains of this receptor were found to be associated with the human genetic disorder called tumor necrosis factor associated periodic syndrome (TRAPS) or periodic fever syndrome.

配方: PBS

分子量: 47.2 kDa

序列: Leu30-Thr 211

纯度: > 95% by HPLC

浓度:

内毒素: <1.0 EU per 1 μ g of protein (determined by LAL method)

存储: +4 °C 保存 (1-2 周). 长期保存在 -20 °C 或者 -70 °C. 避免反复冻融.
