Recombinant Human SLAM Family Member 8/BLAME/SLAMF8/BLAME Protein(C-6His)

产品货号: TP05216

第三版

别名:SLAM family member 8;B-lymphocyte activator macrophage expressed;BCM-like membrane protein;CD353;SLAMF8;BLAME

描述:SLAM family member 8 (SLAMF8) is a single-pass type I membrane protein and contains 1 Ig-like C2-type domain. SLAMF8 is a member of the CD2 family of cell surface proteins involved in lymphocyte activation. These proteins are characterized by Ig domains and studies of a similar protein in mouse suggest that it may function during B cell lineage commitment. SLAMF8 is expressed in lymph node, spleen, thymus and bone marrow. It may play a role in B-lineage commitment and/or modulation of signaling through the B-cell receptor.

配方:PBS

分子量:26.2 kDa

序列:Ala23-Asp233

纯度:> 95% by HPLC

浓度:

内毒素:<1.0 EU per 1 ug of protein (determined by LAL method)

存储: +4 ° C 保存 (1-2 周). 长期保存在-20 ° C或者-70 ° C. 避免反复冻融.
