Recombinant Human Coagulation Factor III/Tissue Factor/CD142 Protein(C-6His)

产品货号: TP05272

第三版

别名:Tissue Factor; TF; Coagulation Factor III; Thromboplastin; CD142; F3

描述:Tissue Factor (TF) is a single-pass type I membrane glycoprotein member of the tissue factor family. TF expression is highly dependent upon cell type. This factor enables cells to initiate the blood coagulation cascades, and it functions as the high-affinity receptor for the coagulation factor VII. TF initiates blood coagulation by forming a complex with circulating factor VII or VIIa. The complex activates factors IX or X by specific limited protolysis. TF plays a role in normal hemostasis by initiating the cell-surface assembly and propagation of the coagulation protease cascade.

配方:PBS

分子量:25.8 kDa

序列:Gly34-Glu251

纯度:> 95% by HPLC

浓度:

内毒素:<1.0 EU per 1 ug of protein (determined by LAL method)

存储: +4°C保存(1-2周).长期保存在-20°C或者-70°C.避免反复冻融.

1/1
