

Tau Anti-Human Rabbit IgG Affinity Purify

Polyclonal Antibody

Cat.NO.: PA01200

3th Edition

Description: Tau proteins are microtubule-associated proteins that are thought to regulate different properties of neuronal and possibly also glial microtubules, especially their stability and orientation.

Antigen: Synthetic peptide for N terminus portion (AEPRQEFVEMEDHAG) of human Tau Protein

Form: Lyophilized product from 1% BSA in PBS containing 0.05%NaN₃

How to use: 1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

Dilution: PBS (pH7.4) containing 1% BSA

Application: This antibody can be used for western blotting in concentration of 1?5?g/ml.

Specificity: Reacts with all of recombinant human Tau protein isoforms, Tau 352, 383, 381, 412, 410, and 441, which are confirmed by western blotting.
