

Anti-Single Stranded DNA (ssDNA) Rabbit IgG Affinity Purify

Polyclonal Antibody

Cat.NO.: PA01363

3th Edition

Description: Apoptosis, or programmed cell death, is a highly conserved biochemical mechanism that allows cells to die in a controlled and organized manner. This death process is essential for normal cellular differentiation and tissue homeostasis within multi-cellular organisms.

Antigen: Bovine fragment single stranded DNA

Form: Lyophilized product from 1% BSA in PBS containing 0.05%NaN₃

How to use: 1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

Dilution: PBS (pH7.4) containing 1% BSA

Application: This antibody can be used for western blotting in concentration of 1?5?g/ml.

Specificity: Can reacts with random sequenced single DNA of all species not only of human.
