

Anti-Human/Mouse/Rat/Monkey Phospho-CRK (Tyr221) Polyclonal Antibody

Polyclonal Antibody

Cat.NO.: PA01731

3th Edition

Description:The Crk-I and Crk-II forms differ in their biological activities. Crk-II has less transforming activity than Crk-I. Crk-II mediates attachment-induced MAPK8 activation, membrane ruffling and cell motility in a Rac-dependent manner. Involved in phagocytosis of apoptotic cells and cell motility via its interaction with DOCK1 and DOCK4.

Antigen:Synthesized peptide derived from human Crk II around the phosphorylation site of Tyr221

Form:

How to use:1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

Dilution:PBS (pH7.4) containing 1% BSA

Application:This antibody can be used for western blotting in concentration of 1?5?g/ml.

Specificity:
