

## Anti-Human/Mouse UCP3 Polyclonal Antibody

## **Polyclonal Antibody**

## Cat.NO.: PA01959

**3th Edition** 

**Description:**UCP are mitochondrial transporter proteins that create proton leaks across the inner mitochondrial membrane, thus uncoupling oxidative phosphorylation. As a result, energy is dissipated in the form of heat. May play a role in the modulation of tissue respiratory control. Participates in thermogenesis and energy balance.

Antigen: Recombinant human Mitochondrial uncoupling protein 3 protein

Form:

How to use:1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at 2 - 8°C; Solution, 2 years at -20°C

Dilution: PBS (pH7.4) containing 1% BSA

Application: This antibody can be used for western blotting in concentration of 1?5?g/ml.

Specificity: Only in skeletal muscle and heart. Is more expressed in glycolytic than in oxidative skeletal muscles.
