

**Anti-Human BTG3 Polyclonal Antibody**

**Polyclonal Antibody**

**Cat.NO.: PA03646**

---

3th Edition

**Description:**The protein encoded by this gene is a member of the BTG/Tob family. This family has structurally related proteins that appear to have antiproliferative properties. This encoded protein might play a role in neurogenesis in the central nervous system. Two transcript variants encoding different isoforms have been found for this gene.

**Antigen:**Recombinant protein of human BTG3

**Form:**

**How to use:**1.0 ml distilled water will be added to the product

**Stability:** Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

**Dilution:**PBS (pH7.4) containing 1% BSA

**Application:**This antibody can be used for western blotting in concentration of 1?5?g/ml.

**Specificity:**Ubiquitous. High expression in the ventricular zone of the developing central nervous system. High in ovary, testis, prostate, thymus and lung.
