

**Anti-Human GPRIN1 Polyclonal Antibody**

**Polyclonal Antibody**

**Cat.NO.: PA04333**

---

3th Edition

**Description:**GPRIN1 (G Protein Regulated Inducer Of Neurite Outgrowth 1) is a Protein Coding gene. Diseases associated with GPRIN1 include Pustulosis Of Palm And Sole and Psoriasis 14, Pustular. Among its related pathways are MECP2 and Associated Rett Syndrome. GO annotations related to this gene include phosphoprotein binding. An important paralog of this gene is GPRIN3.

**Antigen:**Synthesized peptide derived from the Internal region of human GRIN1

**Form:**

**How to use:**1.0 ml distilled water will be added to the product

**Stability:** Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

**Dilution:**PBS (pH7.4) containing 1% BSA

**Application:**This antibody can be used for western blotting in concentration of 1?5?g/ml.

**Specificity:**Widely expressed in the central nervous system, with highest levels in spinal cord.
