

**Anti-Human/Mouse/Rat GRK2 Polyclonal Antibody**

**Polyclonal Antibody**

**Cat.NO.: PA04342**

---

3th Edition

**Description:** Specifically phosphorylates the agonist-occupied form of the beta-adrenergic and closely related receptors, probably inducing a desensitization of them. Key regulator of LPAR1 signaling. Competes with RALA for binding to LPAR1 thus affecting the signaling properties of the receptor. Desensitizes LPAR1 and LPAR2 in a phosphorylation-independent manner.

**Antigen:** Synthesized peptide derived from human GRK 2 around the non-phosphorylation site of Tyr86.

**Form:**

**How to use:** 1.0 ml distilled water will be added to the product

**Stability:** Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

**Dilution:** PBS (pH7.4) containing 1% BSA

**Application:** This antibody can be used for western blotting in concentration of 1?5?g/ml.

**Specificity:** Expressed in peripheral blood leukocytes.
