

**Anti-Human TDGF1P3 Polyclonal Antibody**

**Polyclonal Antibody**

**Cat.NO.: PA04429**

---

3th Edition

**Description:** TDGF1P3 (Teratocarcinoma-Derived Growth Factor 1 Pseudogene 3) is a Pseudogene. Diseases associated with TDGF1P3 include Teratocarcinoma. Among its related pathways are Signaling by NODAL and Developmental Biology. GO annotations related to this gene include growth factor activity. The TDGF3 locus has characteristics of a retrotransposon, including lack of introns and a poly(A) sequence.

**Antigen:** Synthesized peptide derived from the Internal region of human Cripto-3.

**Form:**

**How to use:** 1.0 ml distilled water will be added to the product

**Stability:** Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

**Dilution:** PBS (pH7.4) containing 1% BSA

**Application:** This antibody can be used for western blotting in concentration of 1?5?g/ml.

**Specificity:** Expressed weakly in lung, colon and breast. Expressed also strongly in primary cancer tissues; lung and colon cancers.
