

**Anti-Human/Mouse NEURL2 Polyclonal Antibody**

**Polyclonal Antibody**

**Cat.NO.: PA05259**

---

3th Edition

**Description:** This gene encodes a protein that is involved in the regulation of myofibril organization. This protein is likely the adaptor component of the E3 ubiquitin ligase complex in striated muscle, and it regulates the ubiquitin-mediated degradation of beta-catenin during myogenesis. Alternative splicing of this gene results in multiple transcript variants. NEURL2 (Neuralized E3 Ubiquitin Protein Ligase 2) is a Protein Coding gene. An important paralog of this gene is NEURL4.

**Antigen:** Synthesized peptide derived from the Internal region of human Neuralized-2

**Form:**

**How to use:** 1.0 ml distilled water will be added to the product

**Stability:** Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

**Dilution:** PBS (pH7.4) containing 1% BSA

**Application:** This antibody can be used for western blotting in concentration of 1?5?g/ml.

**Specificity:** Expressed specifically in skeletal and cardiac muscles.
