

**Anti-Human YEATS2 Polyclonal Antibody**

**Polyclonal Antibody**

**Cat.NO.: PA06152**

---

3th Edition

**Description:**The protein encoded by this gene is a scaffolding subunit of the ATAC complex, which is a complex with acetyltransferase activity on histones H3 and H4. Alternative splicing results in multiple transcript variants encoding different isoforms. YEATS2 (YEATS Domain Containing 2) is a Protein Coding gene. Among its related pathways are Chromatin organization. GO annotations related to this gene include TBP-class protein binding. An important paralog of this gene is YEATS4.

**Antigen:**Synthesized peptide derived from the Internal region of human YEATS2

**Form:**

**How to use:**1.0 ml distilled water will be added to the product

**Stability:** Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

**Dilution:**PBS (pH7.4) containing 1% BSA

**Application:**This antibody can be used for western blotting in concentration of 1?5?g/ml.

**Specificity:**
