

Anti-Human/Mouse/Rat STRN Polyclonal Antibody

Polyclonal Antibody

Cat.NO.: PA06250

3th Edition

Description:STRN (Striatin) is a Protein Coding gene. Diseases associated with STRN include Cherubism and Cerebral Cavernous Malformations 3. Among its related pathways are Plasma membrane estrogen receptor signaling and Neurophysiological process Glutamate regulation of Dopamine D1A receptor signaling. GO annotations related to this gene include protein complex binding and estrogen receptor binding. An important paralog of this gene is STRN3.

Antigen:Synthesized peptide derived from the C-terminal region of human Striatin.

Form:

How to use:1.0 ml distilled water will be added to the product

Stability: Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

Dilution:PBS (pH7.4) containing 1% BSA

Application:This antibody can be used for western blotting in concentration of 1?5?g/ml.

Specificity:Preferentially expressed in brain.
