

**Anti-Human CD300LG Polyclonal Antibody**

**Polyclonal Antibody**

**Cat.NO.: PA06414**

---

3th Edition

**Description:**Members of the CD300 (see MIM 606786)-like (CD300L) family, such as CD300LG, are widely expressed on hematopoietic cells. All CD300L proteins are type I cell surface glycoproteins that contain a single immunoglobulin (Ig) V-like domain.CD300LG (CD300 Molecule Like Family Member G) is a Protein Coding gene. Among its related pathways are Immunoregulatory interactions between a Lymphoid and a non-Lymphoid cell and Innate Immune System. GO annotations related to this gene include IgM binding. An important paralog of this gene is CD300C.

**Antigen:**Synthesized peptide derived from the Internal region of human CD300g.

**Form:**

**How to use:**1.0 ml distilled water will be added to the product

**Stability:** Lyophilized product, 5 years at 2 – 8°C; Solution, 2 years at –20°C

**Dilution:**PBS (pH7.4) containing 1% BSA

**Application:**This antibody can be used for western blotting in concentration of 1?5?g/ml.

**Specificity:**Highly expressed in heart, skeletal muscle and placenta.
