

Anti-Human/Mouse/Rat CLDN5 Polyclonal Antibody

Polyclonal Antibody

Cat.NO.: PA10962

3th Edition

Description: This gene encodes a member of the claudin family. Claudins are integral membrane proteins and components of tight junction strands. Tight junction strands serve as a physical barrier to prevent solutes and water from passing freely through the paracellular space between epithelial or endothelial cell sheets. Mutations in this gene have been found in patients with velocardiofacial syndrome. Alternatively spliced transcript variants encoding the same protein have been found for this gene
